

NEED MORE TRACTION?

Don't get stuck ever again! Get all the traction you will ever need in one simple, yet efficient track solution. Not only are Maximizer skid steer tracks built tough, but they are also uniquely easy-to-install and feature a patented self-cleaning design.

MAXIMIZER[™] series **Over-the-Tire Tracks**

• Excellent Traction

Get all the traction your skid steer will ever need. Yes, even in wet or icy conditions. Maximizer offers a unique hexagon-shaped bar design for a superior traction and that sets us apart from all other over-the-tire tracks on the market. It's a whole new level of track performance!

• Enhanced Stability

Maximizer skid steer tracks lower the center of gravity of your machine. The result? Greater stability, reduced bouncing and a much smoother ride.

• Lateral Stability

Working on side slopes? No problem! The special hexagon pattern on the sidebars helps you stay on track even when you are working on tricky side hill jobs.

• Built Tough

Maximizer tracks are made from heat treated steel, rich in Manganese and Chromium, which translates into pure strength, durability and corrosion resistance.

• Sizes Available

Maximizer over-the-tire tracks are available to fit a wide range of skid steer loader makes and models.

• Fully Adjustable

To insure the proper fit of the tracks over the tires, Maximizer offers a simple yet efficient system for adjusting. Loosen or tighten as much as needed in seconds!

• Self-Cleaning

Maximizer skid steer tracks feature a patented self-cleaning design that keeps the debris out of the system.

• Protect Your Tires

Maximizer tracks will shield your tires from large debris and major cuts and prolong your tires life.

• Easy to Install

Your tracks come with an installation kit that includes all the tools you need along with an easy-to-read installation manual and user guide. You'll be tracking in minutes.

• Fully re-buildable

Maximizer skid steer tracks are 100% re-buildable, meaning reduced operating cost and substantial savings! You can obtain an extra link or section from your dealer to easily rebuild your system as needed. Your Maximizer advantage: no need to replace the entire track ever again!
