McLAREN
Manufacturer of Tracks and Tires

McLaren MTL

McLaren MTL

Fits CAT, Terex, ASV, Polaris MTL

Directional Tread Pattern

Original Tread Pattern

McLaren Multi-Terrain Loader (MTL) Rubber Tracks are constructed from high quality wear-resistant rubber compounds and a reinforced steel belt for optimal durability. Specially formulated rubber compound is gouge, tear, and cut resistant. Steel reinforced design eliminates delamination on both tread and rolling area pathway. Heavy duty lugs easily handle the torque generated by your machine. These features create a reliable long-lasting track.

With McLaren MTL Rubber Tracks you can expect

1. Greater drive lug strength to prevent broken drive lugs and track failure
2. Improved rigidity to prevent detracking when running on uneven surfaces and rugged environments
3. Excellent wear resistance
4. Cut and tear resistance
5. No delamination
6. Guaranteed to fit

McLaren MTL Tracks offer high quality features using the latest technology at an incredibly competitive price. It is pound-for-pound THE BEST VALUE on the market.
